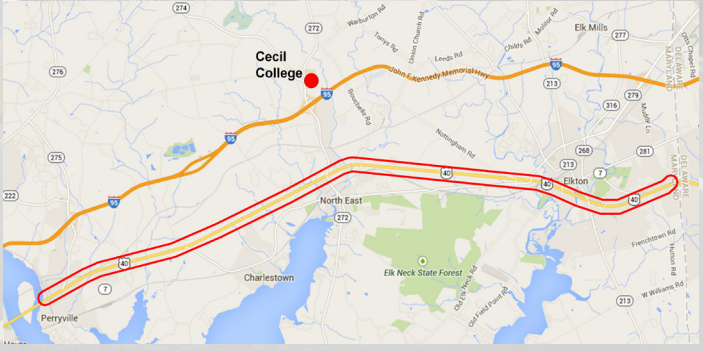
Cecil County Route 40 Transportation Vision Plan Charettes

March 16 and 24
Stop by anytime
from 4 PM to 7 PM
Cecil College
Technology Center (Building D)
1 Seahawk Drive, North East, MD



The Cecil County Route 40 corridor faces many safety challenges. Limited sidewalks, difficult pedestrian crossing, new development and increased congestion are just a few.

The Route 40 Transportation Vision Plan seeks to develop and implement alternatives that address the transportation needs of the corridor.

WILMAPCO will hold two interactive charrettes to answer the question: How do we want the corridor to look and function in the future?

Please join us to meet the project team, share your experiences on Route 40 and discuss how you would like the corridor to look and function in the future.
