The *Cecil County Bicycle Plan* seeks to improve quality of life for residents and visitors by expanding the transportation system to foster safe, inviting and convenient choices for bicycle commuting and recreation. A proposed bicycle network will connect cyclists to each of the Towns and key destinations throughout the County.

Your input is needed to help develop recommendations for both Cecil County and its Towns. Visit at your convenience to discuss the plan's goals, the proposed bicycle network, and other improvements such as bike parking, signage, and safety education. Following, a presentation will be made at the Commissioners meeting at 7 p.m.
