

# Phase I Results

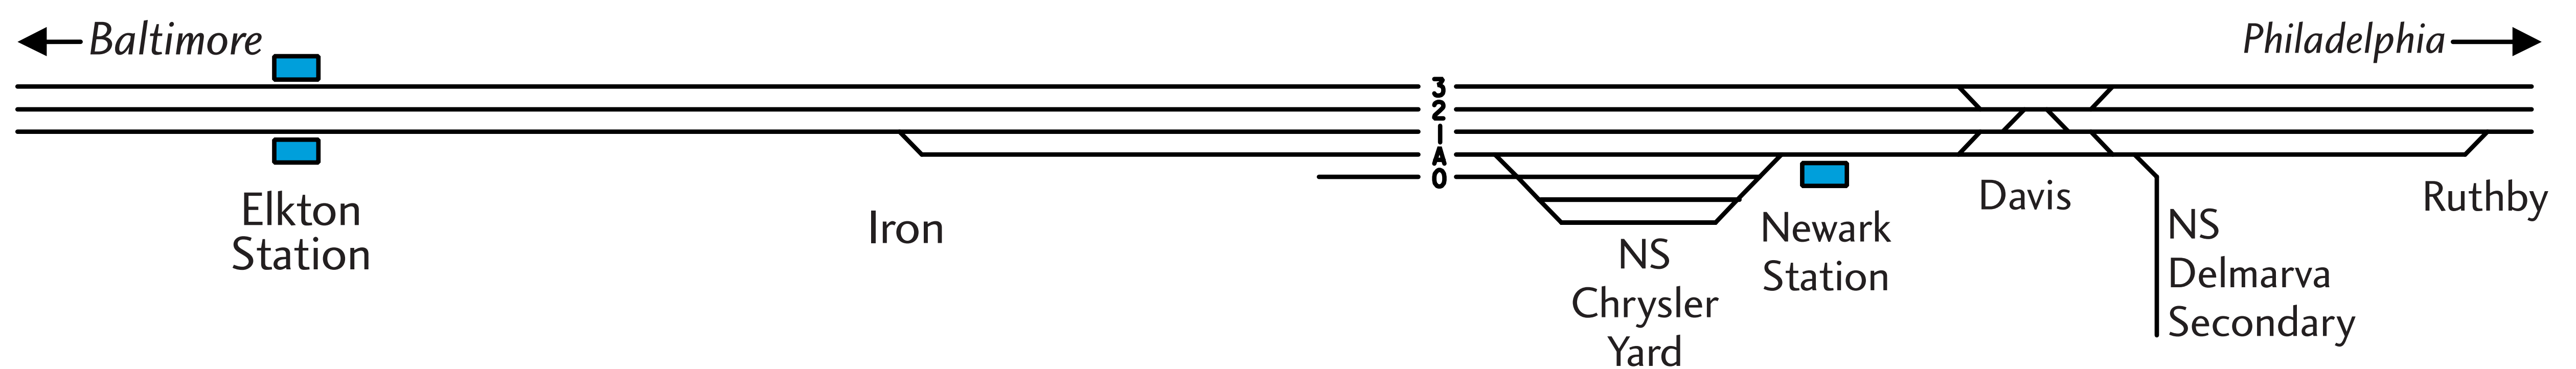

## SEPTA SERVICE EXTENSION FROM NEWARK, DE TO ELKTON, MD

### EXISTING CONFIGURATION

### ALTERNATIVE 1

#### KEY ELEMENTS

- Utilize existing Amtrak Regional trains
- Refurbish existing platform and station building
- Construct pedestrian bridge with elevators to cross tracks
- Newark Station unchanged

#### ADVANTAGES

- Lowest Cost
- No additional trains
- Downtown Station location

#### DISADVANTAGES

- Service limited by Amtrak schedule
- Amtrak's operating constraints and schedule may not accommodate the service desired
- Additional parking required in Downtown Elkton
