

Delaware Truck Parking Inventory

This memo provides a brief overview of the Delaware Truck Parking Inventory, which includes the location and number of spaces at truck parking facilities in and surrounding¹ Delaware.

Delaware has 11 truck parking locations that offer a total of 328 truck parking spaces (Figure 1).² Among these truck parking locations, there are 9 private locations and 2 public locations. Private locations provide 76.8 percent of truck parking spaces in the state, while public facilities provide the remaining 23.2 percent of spaces. Classified among the public locations is the Biden Welcome Center, which is a publicly-owned, but privately-operated facility.

Figure 1: Total, Public, and Private Truck Parking Locations in Delaware

The following pages map truck parking locations in Delaware, or within approximately 20 miles of the Delaware border, classified by public and private location (Figure 2) and by number of truck parking spaces (Figure 3). As illustrated, several truck parking facilities are located in Delaware along US-13 running north-south and near I-95 extending across northern Delaware. A cluster of truck parking facilities is also located on I-295 in New Jersey, just across the Delaware Memorial Bridge.

Figure 4 provides further detail on each truck parking location mapped.

The truck parking inventory presented in this document will be used in the analysis underway using GPS data to identify the utilization of each facility as well as to support the identification of areas of undesignated overnight parking. These insights will then inform the identification of truck parking projects, policies, and partnerships in future technical memos.

¹ Truck parking locations included in the inventory are those located within Delaware or within approximately 20 miles of the Delaware border.

² The inventory was developed using publicly available data from FHWA's 2015 Jason's Law Report and data purchased from Trucker Path validated by the CPCS team using satellite imagery and desktop research.
