We have launched a nine-month planning study for the North Claymont area, and invite you to participate! The North Claymont area holds tremendous opportunity due to existing neighborhoods and residents, history of industry, access to the Delaware River, and a variety of transportation options.

The Master Plan will create a comprehensive vision that includes:

- Community and economic development
- Access to jobs, retail, and services
- Transportation by road, rail, water, transit, walking, and bicycling
- New mixed use residential, commercial, and industrial development

We hope you can join us on February 3 to meet the project team and share your ideas for the future of North Claymont!
