2010-2014 American Community Survey 5-Year Estimates

Note: This is a modified view of the original table.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Subject	Cecil County, Maryland Estimate
EMPLOYMENT STATUS	
Population 16 years and over	80,156
In labor force	52,987
Civilian labor force	52,927
Employed	48,288
Unemployed	4,639
Armed Forces	60
Not in labor force	27,169
Civilian labor force	52,927
Percent Unemployed	(X)
Females 16 years and over	
In labor force	24,807
Civilian labor force	24,798
Employed	23,099
Own children under 6 years	
All parents in family in labor force	4,667
Own children 6 to 17 years	
All parents in family in labor force	11,481
COMMUTING TO WORK	
Workers 16 years and over	47,317
Car, truck, or van -- drove alone	38,952
Car, truck, or van -- carpooled	4,500
Public transportation (excluding taxicab)	337
Walked	912
Other means	421
Worked at home	2,195
Mean travel time to work (minutes)	29.2
OCCUPATION	

Subject	Cecil County, Maryland
	Estimate
Civilian employed population 16 years and over	48,288
Management, business, science, and arts occupations	16,794
Service occupations	9,098
Sales and office occupations	10,473
Natural resources, construction, and maintenance occupations	5,156
Production, transportation, and material moving occupations	6,767
INDUSTRY	
Civilian employed population 16 years and over	48,288
Agriculture, forestry, fishing and hunting, and mining	634
Construction	3,998
Manufacturing	4,992
Wholesale trade	1,142
Retail trade	5,214
Transportation and warehousing, and utilities	2,962
Information	579
Finance and insurance, and real estate and rental and leasing	2,742
Professional, scientific, and management, and administrative and waste management services	4,729
Educational services, and health care and social assistance	10,539
Arts, entertainment, and recreation, and accommodation and food services	4,409
Other services, except public administration	2,302
Public administration	4,046
CLASS OF WORKER	
Civilian employed population 16 years and over	48,288
Private wage and salary workers	36,773
Government workers	9,113
Self-employed in own not incorporated business workers	2,369
Unpaid family workers	33
INCOME AND BENEFITS (IN 2014 INFLATION-ADJUSTED DOLLARS)	
Total households	36,453
Less than \$10,000	1,676
\$10,000 to \$14,999	1,356
\$15,000 to \$24,999	3,450
\$25,000 to \$34,999	2,881
\$35,000 to \$49,999	4,337
\$50,000 to \$74,999	7,176
\$75,000 to \$99,999	4,984
\$100,000 to \$149,999	6,875
\$150,000 to \$199,999	2,244
\$200,000 or more	1,474
Median household income (dollars)	65,124
Mean household income (dollars)	78,047
With earnings	28,933
Mean earnings (dollars)	80,471
With Social Security	10,555
Mean Social Security income (dollars)	18,004
With retirement income	8,222
Mean retirement income (dollars)	21,067
With Supplemental Security Income	1,930
Mean Supplemental Security Income (dollars)	10,050

Subject	Cecil County, Maryland
	Estimate
With cash public assistance income	650
Mean cash public assistance income (dollars)	3,883
With Food Stamp/SNAP benefits in the past 12 months	3,655
Families	26,271
Less than \$10,000	751
\$10,000 to \$14,999	424
\$15,000 to \$24,999	1,664
\$25,000 to \$34,999	1,722
\$35,000 to \$49,999	3,078
\$50,000 to \$74,999	5,066
\$75,000 to \$99,999	4,136
\$100,000 to \$149,999	6,147
\$150,000 to \$199,999	2,012
\$200,000 or more	1,271
Median family income (dollars)	77,042
Mean family income (dollars)	88,395
Per capita income (dollars)	29,025
Nonfamily households	10,182
Median nonfamily income (dollars)	33,173
Mean nonfamily income (dollars)	46,961
Median earnings for workers (dollars)	36,773
Median earnings for male full-time, year-round workers (dollars)	56,830
Median earnings for female full-time, year-round workers (dollars)	42,239
HEALTH INSURANCE COVERAGE	
Civilian noninstitutionalized population	100,556
With health insurance coverage	91,872
With private health insurance	73,158
With public coverage	29,896
No health insurance coverage	8,684
Civilian noninstitutionalized population under 18 years	24,630
No health insurance coverage	1,223
Civilian noninstitutionalized population 18 to 64 years	63,391
In labor force:	49,924
Employed:	45,663
With health insurance coverage	41,366
With private health insurance	39,169
With public coverage	3,032
No health insurance coverage	4,297
Unemployed:	4,261
With health insurance coverage	2,818
With private health insurance	1,386
With public coverage	1,490
No health insurance coverage	1,443
Not in labor force:	13,467
With health insurance coverage	11,879
With private health insurance	7,207
With public coverage	5,686
No health insurance coverage	1,588

Subject	Cecil County, Maryland
	Estimate
PERCENTAGE OF FAMILIES AND PEOPLE WHOSE INCOME IN THE PAST 12 MONTHS IS BELOW THE POVERTY LEVEL	
All families	(X)
With related children under 18 years	(X)
With related children under 5 years only	(X)
Married couple families	(X)
With related children under 18 years	(X)
With related children under 5 years only	(X)
Families with female householder, no husband present	(X)
With related children under 18 years	(X)
With related children under 5 years only	(X)
All people	(X)
Under 18 years	(X)
Related children under 18 years	(X)
Related children under 5 years	(X)
Related children 5 to 17 years	(X)
18 years and over	(X)
18 to 64 years	(X)
65 years and over	(X)
People in families	(X)
Unrelated individuals 15 years and over	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Workers include members of the Armed Forces and civilians who were at work last week.

Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2010.

Industry codes are 4-digit codes and are based on the North American Industry Classification System (NAICS). The Census industry codes for 2013 and later years are based on the 2012 revision of the NAICS. To allow for the creation of 2010-2014 tables, industry data in the multiyear files (2010-2014) were recoded to 2013 Census industry codes. We recommend using caution when comparing data coded using 2013 Census industry codes with data coded using Census industry codes prior to 2013. For more information on the Census industry code changes, please visit our website at <http://www.census.gov/people/io/methodology/>.

Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added as of 2009 -- please see http://www.census.gov/hhes/www/hlthins/publications/coverage_edits_final.pdf for more details. The corresponding 2008 data table in American FactFinder does not incorporate these edits and is therefore not comparable to this table in 2009, 2010, 2011, or 2012. Select geographies of 2008 data comparable to the 2009, 2010, 2011, and 2012 tables are accessible at <http://www.census.gov/hhes/www/hlthins/data/acs/2008/re-run.html>.

The health insurance coverage category names were modified in 2010. See ACS Health Insurance Definitions for a list of the insurance type definitions.

While the 2010-2014 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
