## ACS DEMOGRAPHIC AND HOUSING ESTIMATES

## 2010-2014 American Community Survey 5-Year Estimates

**Note:** This is a modified view of the original table.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Subject	New Castle County, Delaware
	Estimate
<b>SEX AND AGE</b>	
Total population	545,846
Male	264,092
Female	281,754
Under 5 years	33,237
5 to 9 years	34,856
10 to 14 years	33,790
15 to 19 years	38,965
20 to 24 years	41,041
25 to 34 years	74,565
35 to 44 years	70,691
45 to 54 years	80,807
55 to 59 years	36,898
60 to 64 years	30,137
65 to 74 years	39,324
75 to 84 years	21,899
85 years and over	9,636
Median age (years)	37.3
18 years and over	422,504
21 years and over	395,785
62 years and over	88,325
65 years and over	70,859
18 years and over	422,504
Male	201,453
Female	221,051
65 years and over	70,859
Male	30,297
Female	40,562

Subject	New Castle County, Delaware
	Estimate
<b>RACE</b>	
Total population	545,846
One race	532,931
Two or more races	12,915
One race	532,931
White	360,264
Black or African American	131,536
American Indian and Alaska Native	1,216
Cherokee tribal grouping	138
Chippewa tribal grouping	0
Navajo tribal grouping	0
Sioux tribal grouping	32
Asian	26,119
Asian Indian	11,935
Chinese	6,701
Filipino	1,951
Japanese	332
Korean	1,494
Vietnamese	949
Other Asian	2,757
Native Hawaiian and Other Pacific Islander	318
Native Hawaiian	209
Guamanian or Chamorro	62
Samoan	1
Other Pacific Islander	46
Some other race	13,478
Two or more races	12,915
White and Black or African American	5,774
White and American Indian and Alaska Native	1,266
White and Asian	2,322
Black or African American and American Indian and Alaska Native	534
<b>Race alone or in combination with one or more other races</b>	
Total population	545,846
White	371,485
Black or African American	139,329
American Indian and Alaska Native	3,599
Asian	29,093
Native Hawaiian and Other Pacific Islander	637
Some other race	15,416
<b>HISPANIC OR LATINO AND RACE</b>	
Total population	545,846
Hispanic or Latino (of any race)	49,565
Mexican	22,308
Puerto Rican	17,352
Cuban	1,780
Other Hispanic or Latino	8,125
Not Hispanic or Latino	496,281
White alone	329,717
Black or African American alone	128,460
American Indian and Alaska Native alone	868
Asian alone	25,930
Native Hawaiian and Other Pacific Islander alone	79
Some other race alone	1,034
Two or more races	10,193

Subject	New Castle County, Delaware
	Estimate
Two races including Some other race	459
Two races excluding Some other race, and Three or more races	9,734

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

For more information on understanding race and Hispanic origin data, please see the Census 2010 Brief entitled, Overview of Race and Hispanic Origin: 2010, issued March 2011. (pdf format)

While the 2010-2014 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
